-  [Falit Nautiyal](#)

Education

VIT University

Bachelor of Computer Science

2025 - 2029

Skills

- Java
- Python
- Critical Thinking
- Artificial Intelligence
- Machine Learning
- OOPs
- HTML/CSS

Language

- English
- Hindi

About Me

I am an aspiring AI engineer with a strong foundation in computer science and hands-on experience building machine learning and deep learning projects. I focus on applying AI to real-world problems, particularly in automation, and I enjoy working end-to-end — from data preprocessing to model deployment. I continuously push myself to learn new tools, refine my technical thinking, and build systems that are both accurate and practical.

Projects

Medical Field

XRAY Abnormality Detection

AI-powered X-ray classification system for detecting musculoskeletal abnormalities using deep learning using ResNet50 and DenseNet121 models trained on the MURA dataset.
